Warsaw, January 5.

THe last Letters from *Cracow* told us, that the King of *Poland* was gone from *Zolkiew* to *Leopol*, where the Commissioners for the regulating the Winter-quarters, are still assembled; And that from thence his Majesty would go to *Czierniecke* near *Lublin* a place he much delights in. In the mean time things are preparing for the general Dyet which is to meet here the 20th of the next month. The Provintial Dyets are now assembled in most of the Palatinates to choose their Deputies for the general Dyet, and to give them Instructions upon the great Point proposed by the King in his Circular Letters, to wit, the raising of such a sum of Money as is necessary for the recruiting the Troops, making of Magazines, and providing a good Train of Artillery; In which his Majesty desires a speedy resolution may be taken in the general Dyet that so he may be able to begin the next Campagne earlier than he did the last. The Letters from the Frontiers give an account that the Turks have brought 600 Wagons laden with Provisions into *Camieniec*; And that the Tartars do make frequent Incursions into the Polish Territories. The Troops which the Elector of *Brandenburgh* sent the last Summer to the assistance of this Crown, are marching back to *Prussia*, being reduced to 1200 men. We are told that a Marriage is concluded between the Prince of *Poland* and Madamoiselle *de Bourbon*. And that the Queen will go to *France* in the Spring.

Vienna, January 18. The Turks in *Newheusel* encouraged with the succor they lately received, have since made several Excursions with very strong Parties; The 3000 Horse that brought in the Provisions, were according to our last advices still there; It's said there would be drawn out of them 1000 or 1200 men to make up the Garison, and the rest with the old Men and others that are unfit for Service, and the Women and Children would be sent back to *Agria* and *Buda*. There are Letters from *Hungary* which say, that a considerable Body of Turks is drawing together between *Buda* and *Gran*, with design to pass the *Danube* and put a farther supply into *Newheusel*, but it deserves no great credit. They write from *Croatia* that the Turks have very closely blocked up *Virovitza* (which place was taken by General *Leslie* the last Summer) but it is so well provided with all things necessary that we do not think it to be in any danger. The States of *Austria* are now assembled here, but it is not yet known how great a sum of Money the Emperor does ask of them. On Sunday last the Duke of *Lorrain* returned hither with the Queen Dowager of *Poland* his Wife, whom he had been to meet at *Lintz* in her way hither from *Insprucke*. The same day the Emperor received the account of the death of the Arch-Bishop of *Gran* Primate of *Hungary*, who it's said has given all his Temporal Estate and a great sum of Money to the Emperor. The Baron *Abele* is gone from *Trencbin* to *Newsol* to confer with General *Aebatz* about removing the Troops of *Bavaria* into better quarters, who make great complaints of those they are now in. The Count of *Wallstain* has given the Emperor an account of the disposition he left things in at the Court of *Poland*. We hear nothing farther of the Prince of *Poland's* coming hither; And it's thought he is gone directly for *France*. All things are, it's said, agreed with the Count *de Hohenloe*. Envoy Extraordinary from the States of *Zeeland* concerning the march and subsistence of the Troops they are to send to the Emperor's assistance.

Vienna, January 21. The Armenian, who arrived here the last week, had yesterday Audience of the Prince of *Baden* President of the Council of War, to whom he delivered a Letter from the Viser of *Buda*; of which we do not yet know the Contents; but it's said that in his discourse he made some overture towards the setting on foot a Negotiation of Peace. The Emperor has written to the Cities of *Ulm*, *Ratisbonne*, and other places on the *Danube* to provide a certain number of Boats for the use of the Troops with which the Elector of *Cologne* is to assist his Imperial Majesty. It's said the Court will remove the next month to *Lintz*; And that the Marriage between the Elector of *Bavaria* and the Arch-Dutchess the Emperor's Daughter will be celebrated there. The Cold is at present so severe that People are daily found Frozen to death in the Streets.

Ratisbonne, January 22. The Memorial presented by the Imperial Commissioners demanding the assistance of the Empire against the Turks, hath been read in the several Colledges of the Dyet, and there has been a long debate upon it; but it is a matter that meets with so many difficulties that the Imperial Ministers have thought it necessary to dispatch an Express to *Vienna*, and have desired the Colledges to proceed no farther in it till his return. On Thursday last died here the Bishop of *Aichstet* the Emperor's Principal Commissioner at the Dyet in the 80th year of his Age. The Bishop of *Saltzburg* hath promised to assist his Imperial Majesty with a sum of Money, and with several great Cannon. They write from *Vienna* that the Count of *Wallastain* was returned from *Poland*; And that the Ambassador of *Venice* had obtained leave from the Emperor to raise a Regiment of Dragoons for the Service of the Republick.

Cologne, January 26. The Magistrates of this City finding it a very difficult thing to raise the 600 men they are to assist the Emperor with, do offer instead thereof to give a sum of Money, which it's believed his Imperial Majesty will consent to.
